

BARVIC DIGITAL SKILLS HUB

Complementing Competency-Based Education (CBE) with Practical Coding, AI and
Digital Skills Training for Young Learners.

Powered by Barvic Solutions Limited

From the Founder's Desk...

I am a product of mentorship, and I have personally experienced its power in shaping direction, confidence, and opportunity. My journey is a true testimony of how guidance, exposure, and hands-on learning can transform a young person's future.

Barvic Digital Skills Hub was born from this experience. It is a Pan-African EdTech platform that complements Competency-Based Education (CBE) by equipping young learners with practical coding, artificial intelligence (AI), robotics, digital creativity, and emerging technology skills.

Having seen the impact of mentorship firsthand, I am passionate about extending the same opportunity to learners across Kenya and Africa. Through schools, parents, and learning communities, we deliver hands-on, project-based learning that transforms learners from technology consumers into technology creators.

Our programs are designed to nurture creativity, problem-solving, critical thinking, and innovation while preparing learners for future academic, entrepreneurial, and career pathways.

Through structured learning pathways, mentorship, coding clubs, and school partnerships, we are building a generation of confident digital creators, innovators, and future technology leaders across Africa.

"Technology is the new language of opportunity, and we are giving every Kenyan learner a chance to speak it fluently."

ABOUT BARVIC DIGITAL SKILLS HUB

As Kenya's leading digital skills training hub, Barvic Digital Skills Hub exists to close the digital skills gap in schools across Kenya. As a digital-skill-training initiative of Barvic Solutions Limited, we deliver practical, hands-on training taught by active tech professionals.

MISSION & VISION

Our Mission

01

To empower Kenyan students with practical digital skills, mentorship, and tools to innovate and transform communities.

Our Vision

02

Inspiring Kenya's young minds with digital skills that unlock creativity, confidence, and global opportunity.

Our Tagline: Build Your Digital Future!

WHO WE SERVE

Digital skills are not optional anymore. And neither are we.

Barvic Digital Skills Hub exists for every Kenyan institution that believes its learners deserve a future-ready education. Whether you run a private academy, a public school with large classes, or an international school with global standards — we have a pathway for you.

Here is who we serve:

-  Private Primary and Secondary Schools
-  Public Primary and Secondary Schools
-  Universities, Colleges and International Schools
-  Government Agencies
-  Non-Governmental Organizations (NGOs)
-  Faith-Based Organisations (FBOs)
